

UMSL HACK

"Show Me The Data"

V3

Our Mission

To create a collaborative learning environment where students of all different skill levels and backgrounds are able to participate while obtaining important technical career skills along with networking opportunities.

When:

February 15th at 5:00 PM
To
February 17th at 6:00 PM

Where:

UMSL Information Systems Dept.
1 University Blvd. Expresss Scripts Hall
St.Louis, MO 63121

Theme:

This year theme is “Show Me The Data”. Participants will be required to create an application that store, delete, update, and read data from a database. We will provide a range of data set for the participant to use but its up to the participants to decide whether they use the one provided or supply their own data set. The second requirement is for the participant to build a UI to show their data.
